DISCIPLINE

Discipline methods used at CEC consist of positive reinforcement and behavior modification techniques.

Children will not be shamed or berated at CEC. We attempt to teach the children the cause and effect of their behavior. Within the classroom, children will be redirected and reminded of acceptable behavior. If needed, separation from the group to “cool down” or a visit to the Director will be used. The Director counsels the child and calls the parent if necessary.

The teachers at the Child Enrichment Center will not use physical punishment to discipline any child.

If necessary, a special conference will be held with the parents to develop a plan to help the child be successful.
